```

All cash 5 lottery games are not equal but are very similar in nature. All cash 5 lotto drawing uses ball sets which are the groups of lottery balls that lotteries use in their drawing machines to choose the winning numbers from.

ADJACENT NUMBERS- Are numbers that are one higher or one lower than the winning numbers from the previous draw. For example, numbers that are next to each other, or on either side(+1or -1 ) of the lottery number that hit in the last drawing. For example 16-17 and 17-18 are sets of adjacent numbers, so if number 17 hit in the last drawing, its adjacent Number would be the number before and the number after it, or 17 or 18 for the next drawing. More than about $80 \%$ of drawings in most lotto games have one or more Adjacent Numbers, So it will be smart to choose some of these numbers in your set of lottery number to play.

Go grab some Adjacent numbers to play your next lottery.

## Everything You've Always Wanted to Know About Picking Lotto Numbers

## The Winner Maker Number Picking Methods \& Techniques

## 41. Go for what you don't know

Picking winning lottery numbers is not rocket science. It does have something to do with what happened in previous draws, hot and cold numbers, and lots of other mystical stuff that the average person will never understand. They don't have to know how the machine picks its numbers, only theirs.

## 42. One of kind only

Every lottery draw is a one time unique event. What happened last draw or any other draw has no effect at all on the next draw. The machine doesn't remember what happened before. Neither do the lottery balls. It is a nonduplication process - the organisers, employers and security staff are very well paid people to make sure that every draw is totally random.

## 43. Technical lotto

Computers, overpriced software that analyses years of results to pick lotto numbers by, or fancy paradynes and expensive services will dnot help to increase your chances of winning. Only more entries and consistant playing can do that - That is why I tell you to play more tickets to increase your returns

## 44. Stand Alone Method

But here is what you can do. Pick lottery numbers more intelligently. this increase the amount you win when your numbers do come up. When picking winning lotto numbers, you want to pick lottery numbers that nobody else is picking, because when thousands of others win with you, your take is very, very small.

## 45. Lotto Ouch!

History has shown some very disappointed jackpot winners. They were happy to win until they found out they were sharing the mega millions with a thousand other jackpot winners who all picked the same lucky numbers Ouch! Try not to run with the pack in this case.

## 46. Proximity

There are countless ways of picking lottery numbers in a more intelligent way - you just have to out think others. See how they pick their numbers, and stay as far away from their system as possible. If you have to completely change your methods, do so. Find your own unique numbers picking style.

## 47. Shifting

Don't just keep loosing by playing and picking your lotto numbers the say old way. Change the time, change the days, the hour, the location where you buy your tickets. Shift everything around often to create expected excitement and to break old routines and to create new winning habits and trends.

## 48. Rotating

Rotate your numbers. move your picks from low to high, from right side of card to left side, invert 9 s and 6 s , create number patterns on your play cards that looks like splashes or ink blots.

## 49. Seeing it happening to you;

It is good to look for what you want to happen to you.
Look for and work to wards reaching your goals. Take action
steps everyday that will put you closer to your big goal.

## 50. Mind and Matter

No matter how illusive the lottery may be to you, it is only a numbers game. Games were made to be played and games were also made to be won. So set your focus and your mind on winning this matter. It will be only a matter of time before you crack this lotto gold mine.
copyrighted 2-1-10 by peets publishing Co.

## 51. Average Out

Look at past month averages and see which group of picks of winning (low end, middle or high end numbers) were picked more and play numbers in that range group

## 52. Lead Start

Check past winning draws to see which number came out first If 5 was the first and leading number out the gate, star your first pick with the number 5. Pick your other numbers as you please.

## 53. Finish Stop

Check the winning finishing or last pick number over any given period ot time-week or more. End your last number pick with this number. Pick your other play numbers at will.

## 54. Center Dominate

The center numbers for a great deal of winning picks runs serially or follow in sequential order as: 1-(8-9) or $1-4-(6-7)-9$ or $9-15-18-(23-24)-25$ and sometime three or four numbers follow in series but play them sparingly

## 55. Running Evens

The old saying goes, Don't play all even number when picking your lotto numbers. (2-4-6) (2-4-6-8) (10-12-14-16-18) Better to use with smaller fewer number plays like P-3 \& P-4

## 56. Running Odds

Playing odd numbers seen more practicle because lotto is an odds game. (1-3-5) (3-5-7-9) (11-13-15-17-19) and (23-25-27-29-31-33)

## 57. Running even Same

Running even same numbers to win the lottery is the hard winning method, because they only comes out maybe once or twice a year, When you feel the time is right try these picks. Sample, (000), (222), (444,) (666), (888)

## 58. Running Odds Same

This winning picking method is a little more easier to win Seeming because lotto is a numbers odds game. These picks are: $111,333,555,777,999$ and they come out maybe 2 or 3 times a year

## 59. Number 6/49 and 1 you

In big maga and super lotto systems you have what is known as 6/49. in which you have to pick 6 numbers in advance from the 49 numbers in the tank that you hope will be drawn
form the 49. To win you must pick 1 in 6.2 millions chances

## 60. Place and Hold

Place and hold method: Select your favorite picks of numbers and hold on to them and play them until they win. You should have a predetermind period for your favorite number to win.
Say if 30-60 days is the time you set for your number to win and it doesn't pull the plug on it. Timing is off. Ty it again later at some other future date.

# The Winner Maker Number Picking Methods \& Techniques 

## 61. Group Participation

Is known as the syndicate system. This is said to be the best way to increase your chances at winning. because better or more chances are in the greatest numbers played. Play in in work play, State run groups, or other country groups.

## 62. Picking Numbers Party

Some people just play in pools and let the group leader or members in the group pick numbers for them and all the others members in the group. 100 chances is better than 1

## 63. Path Following Principal

Read the stories of other big winners. Talk to real people that have won big. Hear what they have to say about what they went through, the grind, the anticipation, money woes lose of friendships, loneliness and heart aches-and so on..

## 64. Trail Plays

Remember that hot trails and tips grows cold very quickly when your playing money runs out. You must always plan ahead with a little put aside cash to keep you in the game and on the trail to your big payday.

## 65. Splash method

Try the splash. If your play slip card pattern look like a splash of water when it is forced on the side walk concrete, you will have increased or improved your odds of winning with that card.

## 66. The Body Principal

Pick numbers from you body part members. ie. legs- 2 . hand- 5 eyes-2 thus (252 )or fingers-10 \& set of teeth 32 thus. (1032).

## 67. Highly Active Numbers

Try to be highly energetic, lively and upbeat, when selecting and picking your lotto numbers. Transfer as much positive energy onto the play slips as you can. That old saying that says you get out of something what ever you put into it. Show some love in this process. you will surely get some back.

## 68. Happy Family of numbers Traveling

Try your hand at picking a group of numbers that sound good to you when you speak their sound. 347, 486 or 1812,3945 and 12-17-26-29-34 or 4-16-22-34-45-48. Only pick the numbers that sounds very good to your own ears.

## 69. Line of Progression System

Once you choose your favorite 1 single number group pick, stay with it. Stan in the line of its progression. It will find its way to you if you give it an absolute path back to you. align your thoughts and future vivos with your to be winning numbber. Never give up or doubt in any way and it will be yours.

## 70. The elimination method

Can you eliminate or discard any numbers included in any lotto game as being bad choices and feel like you have done the right thing to increase your chances at winning. Would you throw out the baby with the bath water. Always play all and any of the numbers inclusively and equally in all your plays.

## 71. average out

To really win at playing the lotto, start small. play smaller pots, like pick 3 and pick 4. Play and save your winning. Re-invest to keep you going until you can play the big pots and play more tickets to increase the sizes of you wins.

## 72. Picks by default

Quick picks, easy picks and any other machine picks may save you time and though in picking your numbers, but it is still luck and chance that you must have on your side to win.

## 73. Picks by deductive reason

There are many lotto tips and number picking programs on the market. Many of them may be a good read and show differint ways to pick and of picking winning numbers but to truly increase your chances at wining the lotto is you must increase the amount of tickets and the frenquence that you play this game.

## 74. Picks by inductive reasoning

Induce yourself a lotto win by pulling out all the stops. Play the game like there is no tomorrow. Bring all you've got to make this win happen for you. Go back to the page in this brochure that you made notes on. Do those things now.
Follow the advice. Get your numbers and start celebrating.

## 75. First random though

Follow your first random thought. Play the first number thoughts that pop into your head. Don't procrastinate. Move quickly. Don't let this moment past you by. Don't wait
another minute. If necessary grab the closes thing to you with numbers in it and go play them right now!

## 76 Strong Hunches for playing certain numbers

Strong hunches is like something beating in side your head and a feeling that you know that something is about to happen- follow them.

## 77. Frequency of number return time

Don't ever wait for a past winning number to repeat its self. It won't anytime soon. Select a fresh set of numbers to play to increase your winning chances.

## 78. The time factor equation

Time reveals all things. When the time is right, your winning numbers will be shown to you by an unlikely source- Watch for it.

## 79. The seasons associations

The numbers that you have picked already are probably good picks. They are just waiting their due date. time and season to come forth. Hold on Ito them.

## 80. The go around come around system

Some of the many lotto players today still believes that what winming number went around is highly likely to come around again. Not so true. The powers that be pay and hire the best security staff to make sure that this don't happen.

## 81. Present picks from past observations

Past observation of how the winning numbers came out in the past is ok but it has absolutely nothing to do with present or furture picks. What numbers came out in the past will take many, many years to repeat, if ever. no matter what number you use or pick, the odds is always the same. Interlacing old
winning number with new picks will greatly improve the odds.
